Doors & doorglass

Turning your house into a home

Established in 1982, Novatech has become a leading name in the window and door industry. With a workforce of over 1,500 employees, 16 manufacturing facilities, and five distribution centers across North America, we are dedicated to delivering innovative and sustainable solutions for the residential, commercial, and institutional markets.

At Novatech, we aim to create curb appeal and compliment entryways with intriguing textures, resulting in designs that not only provide privacy but also add depth and richness to your spaces. Our commitment to blending style and innovation ensures that our products stay ahead of the trends in a rapidly changing market.

In this catalog, you'll find a wide range of doorglass and doors designed to suit every style and personal taste, with options that offer varying levels of privacy. Explore our collection and discover how the perfect door and doorglass product can transform your home.

Entry doors

A new front door will turn heads, improve your exterior and make your home stand out. Choose from our Shaker, Design, Prestige, Classic, or even the Altitude collection, a range of 8-foot doors.

Steel door construction

Steel entry doors provide homeowners a sleek and clean look to go with unmatched customization options. Our maintenance free doors are reinforced through G40 hot-dipped galvanization, providing durability, strength and security. In addition, steel doors are extremely energy efficient, with a foam filled core to maximize insulation.

Features & benefits

1. 24-gauge G40 hot-dip galvanized steel with smooth finish factory-applied primer or paint. This material offers exceptional durability, combining long-lasting resistance to rust with superior dent and delimitation protection.
2. Pine handle and lock block, fully invisible on the surface of the door.

   Lockblock dimensions:

   6′ 8″ doors
   → N300 - 2.875″ × 1.688″ × 12″
   → N600 - 2.875″ × 1.688″ × 12″
   → N900 - 1.688″ × 1.688″ × 12″

   8′ 0″ doors
   → N900 - 1.688″ × 1.688″ × 24″
3. 1 3⁄16″ jointed pine stiles, the widest in the industry, for enhanced stability and durability.
4. Ozone-friendly, HCFC-free polyurethane foam insulation delivering exceptional thermal performance.
5. Composite bottom rail resists rot, ensuring long-lasting durability.
6. 20-minute fire rating on N300 & N600 constructions (maximum door size 36″ × 80″).

Vertical accent

↑ Uno (Flush) steel door p.19 | 7"×64" Solstice doorglass p.54 | Black vertical accent p.23
■ Tricorn Black, SW 6258

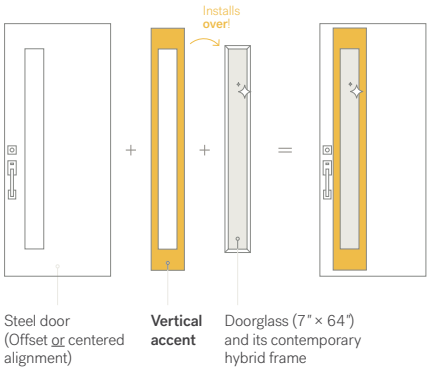

Vertical accent

A distinctive decorative element, the Vertical Accent enhances the door's design by emphasizing the vertical doorglass. Available in Alunox or black finish, it installs on the exterior surface of the door, directly onto the contemporary hybrid aluminum/PVC frame, creating a refined and cohesive appearance. Its automotive-grade adhesive tape ensures a simple, precise, and durable installation.

Each accent pairs with contemporary hybrid (aluminum/PVC) doorglass frames offered in matching finishes, creating a cohesive and refined look.

Doorglass

Adding doorglass is a great way to customize your front door and bring natural light into your home. Look through our unique selection of decorative doorglass.

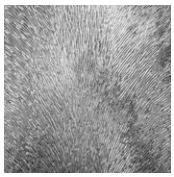

Custom decorative doorglass

Create your own design

You can customize any of our series or bring your designs to life. The only limit is your imagination! Custom doorglass provides home-owners, architects and builders the ability to create exactly what they want.

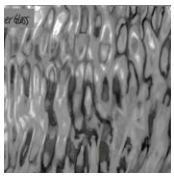

1. Choose black, zinc or brass caming.
2. Customize any decorative series with glass from our wide selection of textures.
3. Send us a drawing of your own design.
4. Include Protector or Impact laminated glass to increase safety and reduce sound transmission.

Aspire

Stained glass — Contemporary style

Aspire is a great choice for a 1960s bungalow or a classic-style home. Entrances with a symmetrical layout pair well with this model. A look you can achieve by installing light fixtures on each side of your front door or by adding decorative elements in front of the entrance.

Hurricane impact

High velocity hurricane zone (HVHZ) approved doorglass

Built for strength and durability, our impact-resistant doorglass offer unparalleled protection against flying debris, extreme winds, and weather damage. Keep your family safe while enhancing your home's security and energy efficiency. Perfect for residential homes in hurricane-prone areas.

Satisfies these requirements

- → Added value of noise reduction
  - → Meets high velocity hurricane zone #FL15419 (*www.floridabuilding.org*)
- → Design pressure and wind and missile impact code requirements for HVHZ areas
- → Laminated glass tests (ASTM C11172)

Shaker impact frame
Features & benefits

- → Missile impact tested and approved
- → Attractive smooth vinyl frame, ideal for beautiful homes
- → First impact frame to market without visible srew holes
- → Snap-on cap covers all screws fits 2'6", 2'8" and 3'0" doors with normal cutouts
- → Eliminates the need for hurricane shutters

Florida wind-borne debris region

LOW-E Available in clear or Low-E (cardinal 272 soft coat standard, cardinal 366 available by special order)

ESSENTIALS

Protector doorglass

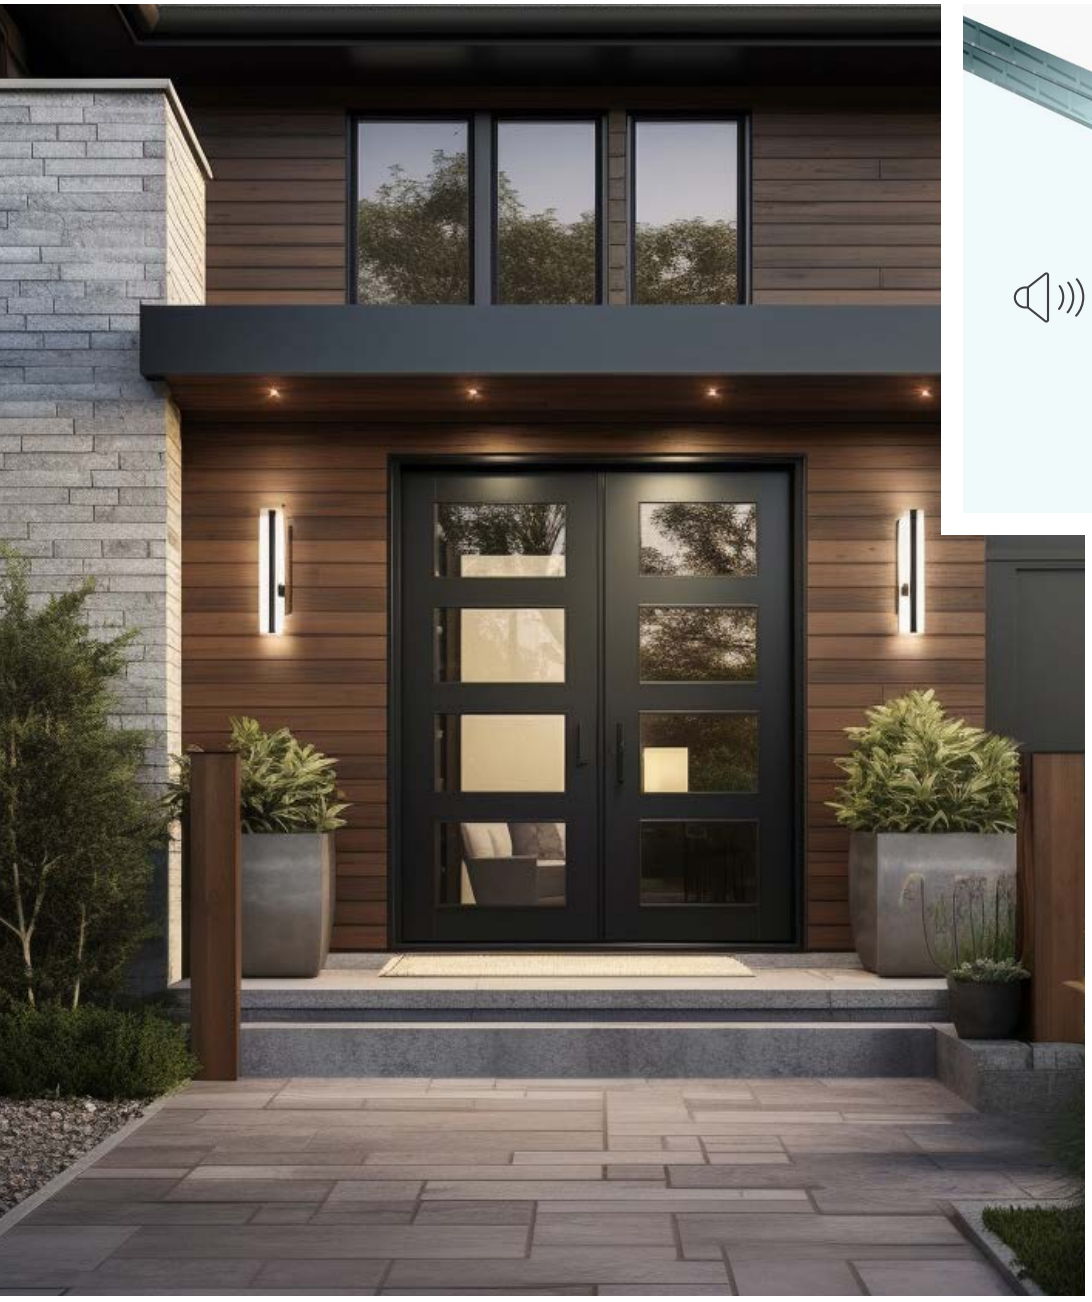

Sound Transmission Class or STC Rating, is a unit of measure describing how much sound is diminished across a partition or window. The higher the STC rating, the higher the noise reduction. Protector laminated doorglass has an STC rating up to 37. Ideal for multifamily housing, urban areas and housing near airports or highways.

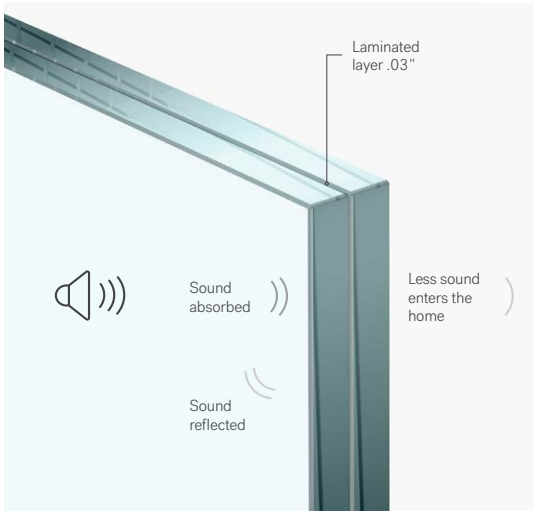

Reduced sound transmission for multi-family and STC requirements

ADA doorglass

Novatech opens the door to everyone

Novatech is proud to be first to market with ADA-compliant doorglass, expanding accessibility without compromising design. Our offering includes two compliant sizes: 22″ × 76″ white frames for 8' doors and 22″ × 60″ white frames for 6′ 8″ doors.

Both options feature 1-lite injection-molded frames and are available in any grilles-between-glass configuration, combining durability, versatility, and inclusivity in one innovative solution.

Door surfaces within 10 inches of the floor or ground must be a smooth surface on the push side extending the full width of the door.

No hardware above 48″

No projections into the opening below 34″

10″ clear surface area

Grilles between glass

Grilles come in a variety of configurations, with 3 width options, 7 color choices, clear glass, and Low-E glass. Our versatile selection is designed to complement your home's style while meeting your energy efficiency needs. Best of all, since the grilles are placed between the glass, they are completely maintenance-free and never require cleaning.

Clear glass essentials LOW-E

Low-E glass reduces solar heat gain to reduce AC costs in the summer and heating costs in the winter; it also reduces condensation and fabric fading by blocking the majority of harmful ultra-violet rays. The U.S. Green Building Council reports that insulated Low-E glass can reduce air conditioning expenses by 25-35%.
